

executive officer

The Greater East Tamaki Business Association (GETBA) has supported local business for more than 15 years. The East Tamaki corridor is one of the fastest growing industrial and commercial precincts in Auckland and GETBA ensures the business community has a voice in the development of this area.

Reporting to the management committee, your key focus will be to drive strategic initiatives and manage the operational activities of the Association. You will build relationships with members and stakeholders to understand key issues and advocate for GETBA at a regional and national level. You will also develop and manage the annual budget and explore new income streams.

To be successful, you will have proven experience in business management and project management or similar. You will be a confident communicator, have a passion for business and ideally have a tertiary qualification. In return, an attractive salary package is offered.
